Autumn Smiles

Anne Lehman Stolpe 

I am an artist and surface pattern designer living in New Hampshire. I have a degree in Fine Arts and continued my education focusing on graphic design. I've always been drawn to bright colors, beautiful textures, and patterns. Making pattern designs has become my favorite creative outlet as I feel it brings all my art and design experience full circle. My passion for drawing, color and design merge together to create my patterns.

Q & A

with Anne

Favorite thing to do besides art?

I have many houseplants that I enjoy caring for and learning about. It has become another creative outlet and brings me joy.

If you weren't an artist, what would you do?

I would love to own a café and a plant shop that also features unique creations from local artists, along with offering creative classes. It would be a mix of some of my favorite things.

Favorite color?

Seafoam Blue

Random fact about yourself?

I enjoy watching documentaries, especially ones that focus on astronomy or explore unsolved mysteries.

WINTER FOREST FRIENDS

Francesca Calvi

*Ciao! I'm Francesca, the illustrator behind Yupcat. (Or the heart and hands behind Yupcat)
I live in a small village near Milan, Italy, where the nature around me—wildflowers, animals, and the countryside—provides daily inspiration. I like to imagine cute creatures coming to life in playful scenes, which I try to capture in whimsical and colorful illustrations.
Drawing is a way to share the little moments of wonder I experience in nature, hoping to bring a smile to anyone who comes across my work.*
